BUSINESS CASE

As Franchisors have become frequent targets in litigation alleging acts or omissions by its franchisees, based on “standards” and or the extent of “control” exercised by the Franchisor over the Franchisee’s day to day operations, Franchisors are wary of providing education and suggestions to Franchisees in the area of risk mitigation.

We are your third party solution.

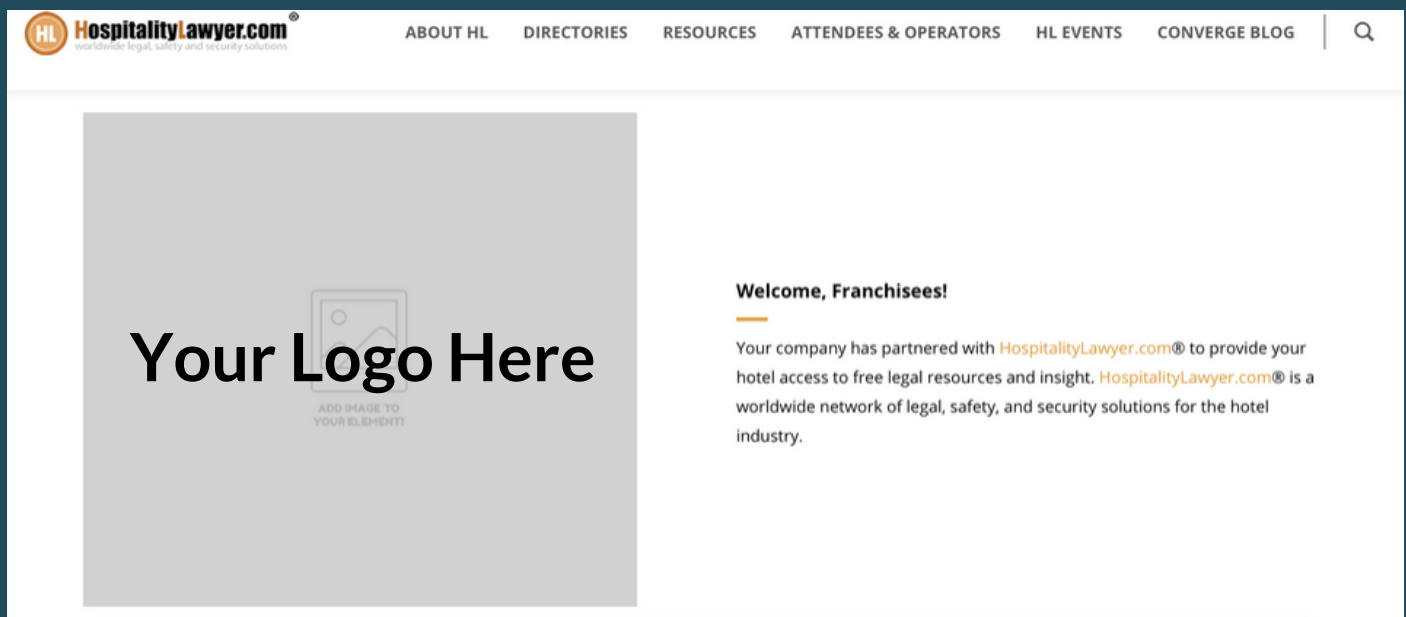

We deliver risk mitigation education and solutions directly to over 18,000 hotel franchisees and counting via curated legal, safety and security education developed by subject matter experts.

PRICING

The total cost for all franchisees to participate in the enterprise subscription is \$37,500 per year.
